

Wedge Distance Chart

Carry numbers only. Fill this in on the range, then carry it in your bag.

Club	7 o'clock	8 o'clock	9 o'clock	Full
Lob wedge				
Sand wedge				
Gap wedge				
Pitching wedge				
9 iron				

How to fill it in

Hit five balls at each clock position. Throw out the longest and the shortest. Average the middle three. That number is the one you write down.

7 o'clock

Hands hip high

8 o'clock

Hands chest high

9 o'clock

Hands shoulder high

Outcome: inside 100 yards you stop guessing. You pick a number, pick the swing that produces it, and commit. That is where the scoring zone strokes come from.
