

Shot Shape Tracker

Call the shot before you hit it, then record what actually happened. The gap between the two is the skill you are building.

Name _____

Date _____

Club _____

Shape you are building _____

Shot	Shape called	Start line	Shape produced	Match	Note
1					
2					
3					
4					
5					
6					
7					
8					
9					
10					

Call it first
Say draw, straight, or fade out loud before the swing. No call, no point.

Score it
One point when the shape produced matches the shape called. Seven of ten is command.

Start left for a draw
A draw player starts from the left side of the tee box and works the ball back.

Session summary

Matches out of 10	Most common miss	Setup check that helped most	Carry forward to next session

Why calling the shot matters: intent produces awareness, awareness produces feedback, and feedback is the only thing that changes a pattern. Hitting range balls without a call is exercise. Hitting them with a call is practice.
